

LAMINATE CLEANER

GB **Laminate Cleaner** - A neutral cleaning agent for all newly-laid laminate floors and the regular cleaning of laminate floors and laminated surfaces. Removes dirt, grease and shoe marks. **Instructions for use:** Regular Cleaning: Add 1/2 graduation = 50 ml Laminate Cleaner to a bucket of water (8-10 l) and wipe over the floor/surface lightly with this solution. Remove grease marks, heel marks and stubborn dirt with undiluted Laminate Cleaner. Then take up dirt and residues of cleaning agents using well wrung out cloths before wiping over the floor/surface again lightly with clear water. **Note:** Laminate floors should not be left damp and certainly not wet for prolonged periods of time since they might absorb water at the edges and this could cause them to swell and lose their shape. For this reason, always wipe over the floor with slightly damp (i.e., wrung out) cloths and do not create „pools“ on the floor. May we also direct your attention to the advice in our Technical Product Information forms. **Our tip:** Remove adhesive residues with Stain Remover for Laminate & Wood Floors. **Ingredients:** <5% non-ionic surfactants, perfumes (LIMONENE), preservation agents (2-BROMO-2-NITROPROPANE-1,3-DIOL, METHYLCHLOROISOTHIAZOLINONE/METHYLISOTHIAZOLINONE). Contains mixture of: 5-chloro-2-methyl-4-isothiazolin-3-one and 2-methyl-2-Hisothiazol-3-one (3:1) May produce an allergic reaction. Safety data sheet available on request.

750 ml

= 15 applications
